Institutional Action Plan on Uniform Mental Health Policy for Preventing Suicides

Since the institution has large number of girl students, we divert our efforts at addressing gender related problems to prevent any possible suicidal tendency among girl students. We accordingly frame the following policy and create committees to address the problems of students at diverse platforms.

- We explore and impart gender values to students from the provided university-designed curriculum not merely through teaching learning but also through extension activities and programmes on such values.
- Students under NSS and NCC are continuously engaged with the local community addressing the issues of Gender, and Human Values Both the departments have appropriate representation of girls.
- Eminent persons are invited to guide students on gender values
- The institute runs courses and value added courses relevant to Gender values.
- We organize national and internal conferences and workshop through which such gender issues are addressed through critical enquiry.
- Adequate representation of girls in co-curricular and extra-curricular activities and competitions at the college and the university level along with their male counterparts is provided.
- A separate cell of Women's Cell & Prevention of Sexual Harassment Cell and also a common room for girls is maintained.
- We are in collaboration with the Police Department to prevent incidents of sexual harassments. We have two separate complaint boxes for girls by the Police Department and also by the college which are being routinely checked.
- Students from B.A. first year and B.Com first year were enrolled in the Value-Added Course of Mahila Adhyayan (Women's Studies).
